TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of Allenstown in the
County of Merrimack in said State, qualified to vote in
Town Affairs:*

You are hereby notified to meet at the New Fire Station in said Allenstown on Tuesday, the 10th day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.
3. To see if the town will raise and appropriate the sum of one hundred dollars for the purpose of securing the services of the Suncook Union Cornet Band for a series of free band concerts.
4. To see if the town will vote to raise and appropriate the necessary sum of money to secure state aid for the permanent improvement of main highways in town.
5. To see if the town will raise and appropriate the sum of fifty dollars for the observance of Memorial Day.
6. To see if the town will raise and appropriate the sum of four hundred dollars for the control of the white pine blister rust in town.
7. To see if the town will raise and appropriate the sum of five hundred dollars towards the Library Building Fund.

8. To see if the town will raise and appropriate the sum of three hundred dollars for the purchase of hose for the Fire Department.

9. To see if the town will raise and appropriate the sum of four hundred dollars for repairing and oiling Whitten Street.

10. (By petition). To see if the town will adopt the Australian ballot to be used at annual elections in March.

11. To see if the town will vote to raise and appropriate the sum of fifty-one hundred dollars for state aid maintenance of highways.

12. (By petition). To see if the town will vote to install a light on School street near the residence of Fred Thompson and appropriate twenty-five dollars for same.

13. (By petition) To see if the town will vote to install an electric light on Cross street, half way between the residences of Mr. Fowler and Mr. McDonnell.

14. (By petition). To see if the town will vote to install an electric light on private way near Mr. Perry's residence.

15. (By petition). To see if the town will vote to raise and appropriate the sum of five hundred dollars to open the highway of Private way opposite Webster street. Lace Manufacturer, Mr. Theodore Furs.

16. To see what action the town will vote to take in regard to acquiring the Ames property for town purposes and pass any vote relating thereto.

17. To see if the town will vote to authorize the selectmen to borrow money in anticipation of taxes.

18. To hear the reports of auditors, agents, committees, or officers heretofore chosen and pass any vote relating thereto.

19. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 21st day of February, in the year of our Lord nineteen hundred and thirty-one.

JOHN N. LETENDRE,
HECTOR P. STOKES,
GEORGE H. DESROCHES,

Selectmen of Allenstown.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

I herewith submit my eighteenth annual report of the schools of Allentown, for the year ending June 30, 1930.

There were maintained during the year, four schools, for a school year of 37 weeks, with no change in the teaching force.

The total school enrollment was 109, with a daily average attendance of 95.37 per cent, a gain of 1.37 per cent.

The schools were in session on an average of 360 half days, a gain of 6 half-days over last year.

Of the four teachers employed all are graduates of a normal school.

HEALTH AND SANITATION

Disraeli, a wise statesman, studying the influences affecting national prosperity said: "Public health is the foundation on which reposes the happiness of the people and the prosperity of a country. The care of the public health is the first duty of a statesman." He might have added that the care of public health is not only the duty of a statesman but also of every citizen.

Hygiene, sanitation and physiology are taught in all our schools, with emphasis placed upon pure foods, pure water, need of ventilation, and proper care of the body. Health inspection conducted by the school nurse, is a great aid to the teacher in impairing the laws of health.

Health inspection of the school children by our school nurse covers diseases, and defects of most every kind, such as, common contagious colds, acute cases of contagious skin or eye disease, defective eyesight, hearing and teeth, adenoids, enlarged tonsils, malnutrition, tuberculosis, weakness

of the heart, curvature of the spine, nervousness, and in fact nearly all contagious diseases.

The school nurse, Miss Douillette, has with the co-operation of parents, succeeded in having many of these defects remedied by a physician or surgeon who has generously contributed his services for little or no compensation.

The school nurse is working faithfully and successfully for good health in school and home.

CONSOLIDATED SCHOOLS

In sparsely settled places in our state the one-teacher school may be needed for some years to come. From the report of the State Board of Education we find that there are 44 less one-teacher schools in 1930 than there were in 1929. Other schools might have been consolidated to the advantage of the children.

Following are some of the advantages of a consolidated school: the building is large, well-lighted and heated, with grounds well cared for; the number of pupils is large enough so that the teacher may have one or two grades instead of five to eight as is usually the case in a one-teacher school, thereby giving more time for each class and therefore better results; it makes games and plays more interesting and arouses a spirit of emulation in the class-room work; attendance increases, tardiness, absence and truancy decrease.

A large school may have an enlarged curriculum and better equipment, making the teaching of practical subjects, like manual training and home economics, profitable. Better teachers can be employed in the large schools because wages are higher, the classes fewer, and the opportunity for advancement and social enjoyments greater.

The transportation of pupils should receive the utmost care; the vehicle should be comfortable, safe, and driven by a reliable driver; the pupils should be taken from and returned to a place in the public highway nearest to their home.

The public school is one of the most important institutions in American life and is worthy of the most careful consideration. The most important problem is the planning of a school system which will best prepare the young men and women for their life's work. Changes in methods or institutions should not be made just to have something new and different, but only after a most thorough consideration. Neither should a method or practice be retained after it has outlived its usefulness. It behooves the citizens to study the problems of the progressive and non-progressive school and decide which they will choose.

ATTENDANCE AND CHILD-LABOR LAW

The School Attendance law of the State, demanding that every child shall have, at least, eight full years of schooling, has been well enforced. The cases of non-attendance were confined to a few families, who gave as a reason, want of means to furnish the child with proper clothing and food. The Child-Labor laws have been strictly obeyed by all the local industries and no violation of this law has been reported.

The teachers were efficient and did good work, as is shown by the standard tests which were given throughout the year.

The good work accomplished in our schools shows the wisdom of the school board in retaining experienced and successful teachers.

Parents and citizens are invited to visit the schools frequently. Parents, by frequent visits to the school, would form a personal acquaintance with the teacher and learn at first hand the real situation of the class-room and thereby be able to talk over frankly with the teacher, the interest of the child. These visits would clear up misunderstandings, if any exist, and would make school work more profitable for the child and give to the teacher a greater interest in him.

In conclusion, I express my appreciation for the co-operation and assistance given to me by the teachers, the school board and the citizens.

Respectfully submitted,

HENRY S. ROBERTS.

REPORT OF MUSIC TEACHER

Mr. Henry S. Roberts, Superintendent of Schools:

The books of the Music Hour Series have been extended through grade 5, and supplementary music books are now in the four upper grades.

Miss Montgomery's and Mrs. Bailey's classes presented operettas during National Music Week, the former giving "A Day at the Circus" and the latter, "The Secret Garden."

Mrs. Benware's class provided the Memorial Day exercise which was a musical playlet "Heart's Ease or Memory's Flower."

Mrs. Wattles' classes were heard in miscellaneous songs on Graduation Day.

Each teacher has been provided with a manual containing the annotated selections which Dr. Walter Damrosch and his orchestra have been broadcasting for the Music Appreciation Hour for Schools on Fridays from eleven to twelve. A few of these selections were obtainable as records and have been added to our Victrola library, so that the students might become familiar to a certain extent with them and thus be enabled to better enjoy the broadcasts which some were able to hear in their own homes.

With grateful appreciation of the efficient work of the teachers and of your advice and help, I respectfully submit this report.

MARTHA F. GALE.

REPORT OF TEACHER OF DOMESTIC SCIENCE

Henry S. Roberts, Superintendent of Schools:

DEAR SIR:

Teaching school girls to become successful homemakers of the future requires something more than teaching the fundamental principles of sewing and cooking. The Domestic Science course demands enthusiasm and interest on the part of the pupil to derive any lasting benefit from the subjects taught. The girls of this year's class have been especially interested in their work. They have been very painstaking and willing to correct any mistakes made. In fact, in no other class have the pupils finished so many projects in sewing.

Nearly everything in the line of household articles was made. Dish, hand and guest towels, draperies, bed linen, quilts, bed spreads and table linen have been the projects successfully done. Some sewing has been done for younger brothers and sisters, and also articles of clothing for the pupil herself.

In cooking, about the same course has been followed as in former years. The pupil has been taught in the art of preparing meals, in making out menus, marketing and setting the table for various meals. As it makes the girls more home-loving to have some responsibility in caring for the home, they are encouraged to do home work in cooking and sewing. When a satisfactory report is made on homework it counts on their marks placed on the report cards.

In June, an exhibition of work done in cooking and sewing was shown in the window of the Morse Furniture Store. Through the courtesy of Mr. Victor Leblanc we were given for use of this window.

For the future of the home, too much stress cannot be

placed on the importance of girls learning to become willing and capable home managers. Parents and teachers can find it worth while to instill into the minds of the younger generation all the love for home life that can possibly be placed there. The life of our country demands it. Without peaceful and happy homes our nation is doomed to a dreary future.

It has been our good fortune in the Allentown School to have the sincere co-operation of the parents in carrying on this work by furnishing interest and materials needed. To the parents, members of the school board, superintendent of schools and citizens, I extend my heartfelt thanks for their appreciation and help.

EDNA BENWARE,
Domestic Science Teacher.

REPORT OF MANUAL TRAINING INSTRUCTOR

Mr. Henry S. Roberts, Superintendent of Schools:

DEAR SIR:

This is the annual report submitted of the work done in the Manual Training course of the Allenstown School.

The boys as a whole showed interest in their work and progressed in a very capable manner. Principles of construction and accuracy were stressed. Much time was spent in practicing the correct use of saws, hammers, planes and other common tools.

The schedule worked out for the 6th grade was so chosen because of the many different tools needed in the construction of the projects. Sketches showing construction and dimensions were made of all work done. During the latter part of the year, the pupils were allowed to make whatever projects they chose under the supervision of the instructor. The projects made are as follows: bread board, broom holder, tooth brush holder, tool box, game board, set of stairs, foot stool and sewing cabinet, also sleeve board, window board, coat hanger and traverse.

The boys showed their interest in the work by buying their finished projects.

The 7th and 8th grade classes could be called a project and repair class. The boys did much work around the school building, such as repairing desks, chairs, windows, screens, and replacing cloak hooks.

The following articles were made: bird houses, medicine cabinets, window boards, bread and meat boards, base and back stop for boys' diamond, flower boxes, foot stools, sleds and table lamps.

I feel that the practical knowledge learned in manual training can be of great use to the boys in their future lives

and the co-operation given us by the parents and citizens of Allenstown has done much to further the interest shown by the pupils in this subject.

Thanking the members of the school board, superintendent and parents, I respectfully submit this report.

HENRY M. LOVEJOY,
Instructor of Manual Training.

MEDICAL INSPECTION

Mr. Henry S. Roberts, Supt. of Schools, Allentown, N. H. :

DEAR SIR:

I herewith submit my third annual report of the schools of Allentown for the year ending June 30, 1930. Each pupil is given a physical examination at the beginning of the fall term and a record is kept stating the condition of the pupil examined. Follow-up work is carried on throughout the year. Notices are sent to parents if defects are found. Home visits are made and help given to parents in having the defects corrected. Weight charts are placed in each school room and underweights are given special attention. Advising of food and diet.

Pupils are watched closely to protect them against communicable diseases. At the time of the diphtheria outbreak a toxin-antitoxin clinic was held and over two hundred children including those of pre-school age received the treatment.

Through the co-operation of Dr. Togus, the Elliot and Notre Dame Hospitals, a number of tonsils and adenoids cases have been corrected. Service has also been rendered by Dr. Jones in orthopedic clinics. Children have been taken to eye clinics and fitted to glasses. This was made possible through the assistance of Mr. Jay H. Corliss, Secretary of the State Board of Public Welfare.

The statistical report for the year follows:

Number of pupils examined	104
Number of pupils underweight	10
Number receiving treatment	5
Number with defective vision	15
Number of cases corrected	5

Number with defective teeth	55
Number of cases corrected	21
Number of tonsils and adenoids	11
Number of cases corrected	6
Number of pupils unvaccinated	6
Number excused by the Board of Health	6

CASES OF COMMUNICABLE DISEASES

Mumps	2
Whooping cough	1
Pediculosis	5
Skin diseases	1

CLINICS HELD

Toxin-antitoxin clinic held at School:	
Number received treatment	48
Throat clinic at Elliot Hospital	
Throat clinic at Notre Dame Hospital.	
Number treated	3
Assisted with the toxin-antitoxin clinic held at the Parochial School.	
Total number of school visits	168
